FROM THE PASTOR

"What is a 3D Sermon?" you ask. Good question. Normally sermons have two dimensions, speaking and hearing. A 3D sermon is an attempt to have you also see a sermon, not just literally with your eyes, but with your mind. It is a sermon with picture stories.

I happen to think that Jesus was actually one of the first to use 3D sermons or stories. He called them parables. They were picture stories that helped prove his point. Many times, he didn't preach, but he simply taught by telling a parable.

The 3D Sermon on February 5th is about Friendship and Fellowship and is titled, "I Hope You Dance". If you recall the last 3D sermon, it was about Heaven. Many of you brought friends and relatives and several said they were deeply moved by the experience. The same experience can happen on the first Sunday in February but you MUST do one thing: bring your friends and relatives. I promise you that something in the sermon will speak to those who attend, but it will have the most meaning to those who bring friends with them. Ask them to come and stay for the lunch. Tell them it will be "a sermon like they've never seen before."

Meaningful sermons are not just about how I preach them, but they are also about how you receive them. It will be a "Super Sunday" if we all continue…

…Working together,

Bill

What are the KIDS up to??

Saturday, January 21, **Skating Party** at Robben's Roost (Six Mile Lane) 1-4pm. Meet at the skating rink.

Saturday, February 11, **Valentine's Talent Show!** at MHBC, 6:30-8pm. (Camp Fundraiser)
